

SOULMATE COSMOLOGY

**ERIKA AND HENRY
MONTEITH**

“Nothing under the Sun is impossible”

BIOGRAPHY

Dr. Henry Monteith was deeply inspired by nature as a youthful farmer. He learned the physical structure of the universe by studying Electrical Engineering, Computer Science, Physics and Mathematics. He realized the spiritual nature of man by studying history, religion, and parapsychology and evolved himself through an awesome spectrum of sublime experiences in the agony and ecstasy of life.

He received his BS degree in Electrical Engineering from the Milwaukee School of Engineering in 1967. He received his MS degree in Computer Science from the University of New Mexico in 1970. He received his Ph.D. in Engineering Physics from the University of New Mexico in 1975. From November 1967 until November 1988 he was employed by the Sandia National Laboratories in Albuquerque New Mexico as a Mathematical Computer Programmer, Nuclear Field Engineer and Instructor for the Department of Energy. During his 21 years of employment at Sandia National Laboratories, he continuously taught theoretical and applied mathematics to the laboratory's scientifically trained employees.

From August 1990 to March 1992, he was an Electronics Instructor for the ITT Technical Institute in Albuquerque, New Mexico. From August 1992 to August 1993 he taught High School Mathematics at the Albuquerque Academy. Finally from August 1993 to December 2003 he was an instructor of mathematics for Eastern New Mexico University in Roswell, New Mexico.

Erika Monteith initially studied in the cellars and bunkers of war torn Germany with bombs falling. She gained admittance to the Heidelberg Music-Conservatory and received a Master's degree as a Pianist and Pedagogue in Music from Germany. Erika has more than 50 years of experience as a professional musician, entertainer, and music teacher throughout Europe. She established and ran a music school in Germany for over 18 years with special attention being paid to students with disabilities. She has fully comprehended the extreme importance of music in the physical, mental and spiritual development of children. Consequently, she created new

approaches to teaching music and pioneered ways to interchange, transform, and adapt classical music to modern music.

Erika's fantastic life spans the entire spectrum of human experience from the agonizing pain, horror, and suffering of genocidal war through life-threatening diseases and physiological defects, to the splendid joy of highly evolved soulmate union to the awesome bliss of Cosmic Consciousness embraced by the Light and Love of the Eternal Cosmic Essence.

When Henry and Erika finally found each other and began to culminate their glorious soul-mate union in 1999, they realized, to their amazement, that Erika's intuitive music was feminine, and Henry's intellectual mathematics was masculine; thus, they were soul-mates and became married as 'one' with their union.

Therefore, when Henry's 50 years of experience in teaching and applying mathematics, combined with continuous thought and meditation upon the lessons learned from those experiences, and Erika's 50 years of experience in teaching and applying music as an entertainer, associated with equal thought and meditation, were combined into one, their mental and spiritual development was sufficient to enable them to formulate the ultimate language with which the entire physical, mental, and spiritual structure of the Cosmos could be described, written, and explained. Indeed, by synthesizing all of the mathematical, musical, and spiritual knowledge that has been accumulated throughout mankind's known history, they have formulated the foundation of the optimum language that is required for the evolution of the human spirit and the expansion of Its consciousness. From moment to delightful moment, they are now experiencing the awesome bliss of communicating with the Cosmic Consciousness using this wonderful language which they presently refer to as Unified Geometric Mathematics Resonating with the Cosmic Octave.

SOULMATE COSMOLOGICAL ACTION: THE PATH TO COSMIC ONENESS

Soulmate Cosmological Action delineates the Life Path followed by soulmates, through many lifetimes, that enables them to contribute uniquely to the evolution of the Spiritual Consciousness of the Cosmos. It culminates their union while developing their personal Cosmology to a level of awareness that is acceptable to the Eternal Cosmic Essence that centers and enfolds all things. It describes the universality of soulmate interaction, which creates all things, and how it is modeled by the Octave of Music that is itself theoretically derived from the double harmonic ratio of Projective Geometry. It implies that children can be most effectively developed, mentally and spiritually, by teaching them the cosmic essence of music, geometrical mathematics, physical and spiritual science simultaneously. Through it, soulmates ask and answer questions that are relevant to their past, present, and future lives and directs their aspirations toward obtaining the

Blissful Oneness of Cosmic Consciousness.

THE CONTENT, MEANING AND PURPOSE OF OUR LECTURES:

In order to stimulate our audience to begin thinking and meditating upon the many deep concepts that we are presenting, our lectures, given under proper conditions, will be conducted with a discussion format in which questions will be allowed. We are dealing with the Evolution of Dual-Sexed Pairs at all levels of the physical, mental, and spiritual expressions of life in the Cosmos, a process that is far from trivial and which takes place on the Time Line of Eternity! The goals of our lectures are as follows:

Clearly define and describe the three great Cosmic Laws that inspire, control and coordinate the entire process of mankind's awesome physical, mental, and spiritual evolution:

- A) **THE ABSOLUTE LAW OF COSMIC ONENESS.**
- B) **THE PRINCIPLE OF DUALITY IN THOUGHT AND ACTION.**
- C) **THE HARMONIC INTERCHANGE OF LOVE ENERGY BETWEEN PERFECTLY BALANCED DUAL-SEXED PAIRS. (GIVING AND RE-GIVING)**

Introduce the creation concept that our entire Living Universe and all of the processes of Spiritual Evolution that are unfolding within it, are nothing more than the effects of infinitely Diversified Creative Light Action that is generated by divided soulmate-pairs relentlessly evolving toward finding each other again and culminating their union into the awesome bliss of Cosmic Oneness.

Stimulate awareness of The Eternal Cosmic Essence, the unknowable cause, that is boundless and beyond all thought; who created the Cosmos as a finite and perceivable representation of Itself. We refer to Its Representation as God the Cosmos, who is, of course, far beyond just the Multiverse that String Theorist are now conjecturing! Thus, soulmate pairs can only evolve toward Oneness with The Cosmic Essence by observing, experiencing, and living in awe, and deep emotional admiration, of Its sublime, mysterious, and wondrous God the Cosmos.

Show that Diversity is a foundation stone of spiritual evolution in nature because only through diversity can experience be maximized and consciousness reach its pinnacle through the development of Cosmic Awareness.

Stress the evolutionary responsibility of each and every soulmate pair to evolve in consciousness and awareness by developing their personal and unique cosmology. This can only be done by meditating and contemplating to obtain understanding from knowledge that has been accumulated through countless incarnations while experiencing the agony and ecstasy of living. You can never truly praise, honor and glorify that which you do not understand!! This is why the only 'Sin' is willful and sustained ignorance and the only 'Virtue' is The Love of Pure Learning!

Show that Mathematics and Music are soulmates. Indeed, that mathematics is not only the language of natural physical science but of spiritual science as well!

Derive the great law of ‘Giving and Re-giving’ from basic arithmetic and show that ‘Taking and Re-taking’ is the only so-called ‘evil’ and ‘Giving and Re-giving’ is the only so-called ‘good’.

Show that the concept of gender must be explicitly integrated into the structure of mathematics before it can be unified and married with music.

Describe how Masculine Unified Geometrical Mathematics is married to Feminine Unified Mathematics of Vibratory Harmony to create a powerful Universal Language that enables each and every soulmate pair to thoroughly describe and apply their Personal Cosmology.

In lectures to more advanced groups, we will show that the duality inherent in complete geometrical structural components, such as the complete quadrilateral, reveals their awesome beauty, specifies their gender-conditioned parts, and suggest how they interact harmoniously. Indeed, the duality in the structure of points, lines, and planes directly suggest the wave-particle duality of Quantum Mechanics and, of course, the music of the spheres.

We will report the state of progress being made by our project to reformulate, redefine, and restructure all geometrical mathematics to include the evolutionary action forces that are generated by the harmonic interchange of energy between dual-sexed-pairs that are balanced and centered by the neutral action points of the Cosmic Essence.

Using our new Universal Language of Soulmate Cosmology, we will set forth the conjecture that the awesome ethereal sea of Cosmic Life Energy is hyper-dimensional, projected by thought, and controlled by harmonic vibrations that are reticulated into the musical octave.

Erika Monteith, a highly accomplished pianist, music teacher, and spiritual philosopher, will spontaneously create and improvise the Music of the Cosmic Spheres under the direct inspiration of her Spirit while experiencing the blissful Oneness of the awesome Love and Creative Light of the Cosmic Essence. The expression of her enchanting music will inspire the audience to realize that wonderful physical, mental and spiritual healing powers are available through it.

We will show that the development of our new Universal Language of Soulmate Cosmology will result in the creation of ideal teaching and learning methods and enable mankind to educate the children of the future ‘Holistically’! In other words, It will empower highly evolved educators to teach their students music, math, physical science, and spiritual science simultaneously, thereby, developing them physically, mentally and spiritually to the highest levels possible under the constraints of evolution in the material world.

Throughout our lectures we will always be emphasizing the eternal fact that the obtainment of knowledge, and the extraction of wisdom and understanding from that knowledge, by deep

meditation and contemplation under the guidance of the Eternal Cosmic Essence, is the only possible way to accelerate the rate of human spiritual evolution and to rise up from the darkness of materialism to the light of spirituality. Knowledge may be transferred from one soulmate pair to another but wisdom and understanding can never be transferred or given as a gift. Indeed, only those who 'understand' the Cosmos can truly appreciate and fully experience the beauty, awe, and wonder of it and, by doing so, ultimately fulfill the purpose for which they were created..

Finally, the human race has reached a very critical crossroad in the cycle of their spiritual evolution on earth. According to the great Law of Duality, evolving souls must first experience the agony and the ecstasy of living in the darkness of ignorance, under the domination of gross and distorted animal emotions, for several thousand years before they are capable of experiencing the unspeakable joy of emerging, from that darkness, into the wondrous Light of Cosmic Knowledge and Deep Spirituality! Now that mankind has had sufficient experience evolving in darkness, God the Cosmos is now calling upon humanity to utilize all of the knowledge, wisdom, and understanding that they have gained, during at least the past 7,000 years, to help every person on earth elevate their awareness to a level of consciousness high enough to qualify for direct communication with the Elohim Star Gods.

Since each and every normal person is a microscopic representation of our wondrous macroscopic God the Cosmos, that they potentially have within themselves all of the powers of God the Cosmos!! It is a major part of the Purpose of Mankind for each and every individual to develop their divine powers and use them to elevate their Consciousness primarily through their own efforts with nothing being directly given to them from higher levels of Consciousness! This is why 'understanding' is individual and can never be transferred from one person to another. The Spirit that centers each person from within and enfolds them from without is an intimate part of The Cosmic Essence and it is by thinking and meditating in harmony with It, while experiencing the trials and tribulations of life and being devoted to the Love of Pure Learning, that the Spirit makes its contribution to the overall expansion in the Consciousness of the Cosmic Essence! Therefore, mankind must empower their children with the ability to release their divine potentials!

The only possible way to accomplish this is to immediately begin educating all of our children holistically, starting from the cradle to the grave! Once the divine potentials of the people have been released, they will take care of the rest!! Failing to do this, in the quite short time that remains, will force God the Cosmos to allow mankind's cycle of evolution to normally continue the re-terra-forming of the surface of the earth which has already started!

Now, not only is the Cosmic Essence giving humanity of earth the choice to immediately begin educating their children holistically, It has helped us to synthesize, from mankind's accumulated knowledge, the holistic language that is required to do so!

THIS CHOICE IS NOW BEING GIVEN, FOR THE VERY LAST TIME, SO THAT NO ONE WILL BE ABLE TO SAY: “WHY WERE WE NOT WARNED!? WHY WERE WE NOT GIVEN THE OPPORTUNITY TO PARTICIPATE IN THE TRANSFORMATION OF OUR CONSCIOUSNESS AND, PERHAPS, BE ABLE TO AT LEAST LESSEN SOME OF THE DISASTROUS CONSEQUENCES OF RE-TERRA-FORMING THE EARTH’S SURFACE!?”

DUE TO THE ABSOLUTE LAW OF ONENESS, WHICH INCLUDES THE CONSERVATION OF ENERGY AND CONSCIOUSNESS, THERE IS NO SUCH THING AS DEATH!! INDEED, DEATH IS, WITHOUT QUALIFICATION, THE MOST WONDERFUL OF ALL OF MANKIND’S LEARNING EXPERIENCES BECAUSE IT ESTABLISHES THE REFERENCE POINT, WITH RESPECT TO WHICH, THE INDESCRIBABLE BLISS OF LIVING ETERNALLY IN THE AWESOME LOVE AND LIGHT OF THE COSMIC ESSENCE CAN BE FULLY COMPREHENDED INTELLECTUALLY, AND APPRECIATED INTUITIVELY, WITH THE DEEPEST HEARTFELT EMOTIONS OF ETERNAL JOY!

HUMANITY, THE CHOICE IS NOW YOURS!
