

# HOLISTIC EDUCATION FOUNDATIONS

**Dr. Henry and Erika Monteith**  
(henrymonteith@att.net)

---

Everything written below is from the point of view of our personal cosmology. It is not intended to be true for anyone else reading it, and we are most certainly not attempting to convince the reader of anything whatsoever. Even if we desired to do so, it is impossible; because one person can never transfer his understanding to another! It is for you to prove or disprove according to your ability to expand your consciousness. You are a Microcosm, created to view the Cosmos from your own unique point of view; therefore, if you wish to experience the indescribably joy and happiness of knowing who you are, where you came from, and where you are going, you must develop your personal cosmology from scratch to the level of awareness where you feel the wondrous bliss of being at One with The Consciousness of Energy! Remember, 'right' and 'wrong' are dual aspects of the same thing! Arguing between them is useless, because one cannot exist without the other; it is for you to choose which side you will physically realize and which side you will leave unfulfilled in your unconscious mind where it must eternally serve as a reference!

---

*In Cosmic Truth, there is no such thing as good and evil; However, if one desires to define a duality of this kind, that is compatible with the Divine Laws of the Cosmos, then one might state: "The most demonic, and darkest of evil, is Willful and Sustained Ignorance. The most virtuous and angelic Light of Good, is the Love of Pure Learning while deeply meditating upon that learning, to obtain wisdom and understanding, in Oneness with the Cosmic Spirit that bounds each person from without, and centers each person from within.*

## INTRODUCTION

In general, a whole human person is considered to be a union of Mind, Heart, Body, and Spirit. The 'heart' is included as a part because it represents all subjective human emotions and feelings; which, of course, can never be objectively defined. When Protagoras states that "**Man is the Measure of All Things**" he was, without doubt, implying that Man is most definitely a 'holism' ( a word which is derived from the Greek word 'holos' that means all, whole, entire, or total). Indeed, the human entity is uniquely synergetic because it is most definitely much "more than the sum of its parts" as was profoundly suggested by Aristotle.

**The ancient Greek philosophers, who were early pioneers in the development of human potential, were astonished when they discovered that there was no limit to the changes that Man could make in himself and for himself; NO LIMIT, whatsoever!** Recently, this conclusion is being dramatically confirmed by Stan Lee(1) who has successfully located several extraordinary people from around the world who have been born with, or developed, superhuman powers by causing great changes in their minds and bodies with the use of rigorous physical, mental, and spiritual discipline:

1) **Raj Mohan Nair of India** can pass a current of more than three amperes through his body without suffering harm (one-tenth ampere is enough to kill an ordinary person).

2) **Kenny Muhammad of New York** was born with a specially designed vocal chord tract which enables him to create the sounds of an entire orchestra; therefore, he has been nicknamed "**The Human Orchestra**".

3) **Tim Cridland of New York** was inspired by Indian Fakirs to develop the **ability to shut off pain and control bleeding**. Therefore, he suffers no pain and experiences no life-threatening after effects when he impales his arms and legs with sharpened bicycle spokes!

4) **Patrick Musimu of Belgium** is able to **dive down 656 feet on a single breath**. He has a lung capacity of nine liters and can hold his breath for more than eight minutes and thirty-three seconds. He believes that there is no limit to how far he can push his ability to withstand the enormous pressures associated with such depths.

5) **Miroslaw Magola of Poland**, now living in Germany, is able to **harness the power of psychokinesis** to lift objects off the floor, transport them through the air and force them to stick to his body. In 1988, Miroslaw began experimenting with yoga and meditation. He felt that the brain was an unused "sense" subdued by modern life and overloaded with materialistic information. He now uses his power to try and show others that the mind is capable of things beyond our understanding. He has been the subject of several scientific studies.

6) **Isao Machi of Japan**, now living in Los Angeles, is a real life modern day samurai who started honing his unbelievable sword skills when he was a child. He was taught by an old master from the age of five and has now graduated to become the headmaster of a samurai school. **His sword skills are so accurate that he can slice a tiny pellet in half when it is shot at him by a BB gun.** The action happens at such an incredible speed that it can only be captured by one of the world's most sophisticated high speed cameras for slow-motion analysis.

7) **Shifu Shi Yan Ming of China**, now living in New York. Defected from China to US in 1992 for the purpose of introducing the teaching of authentic Shaolin Martial Arts or Chan Buddhism to westerners. He began his training to become a master Shaolin Monk when only five years old. He developed the ability to accumulate and project Mind Force Energy(Shaolin Chi-power) to a level high enough to make the human body seem invulnerable. He can harden his body to the extent that it can withstand very heavy blows with a thick wooden stick which shatter on contact. **He can bend a spear with the point centered on his throat, and he can throw a punch from one inch away that delivers a force greater than 772 pounds to the object being struck. His punch can cause more damage than a car moving at thirty miles per hour!**

8) **Dan Meyer of Alabama** is one of the best sword swallows in the world. He says that the secret actually lies in his superhuman ability to control his body's automatic responses to the sword being pushed down his throat. He had a near death experience once when he punctured his stomach while swallowing seven swords at once. This demonstrated what happens when you lose control over your non-conscious muscles. **He can swallow 15-inch razors, hedge clippers, and even curved blades that nudge his heart out of the way as they pass by.**

Of the more than thirty people, with super human powers, which Stan Lee has investigated, they all realize that **the primary barriers they had to overcome, in order to develop their abilities, are those which have been set by their 'conscious minds'!** Even more important, is the fact that they all realize, either consciously or unconsciously, that **Mind Force Energy is a direct projection of the power of their 'Spiritual Consciousness' and that their un-evolved 'Physical Conscious Mind' can greatly impede its action!**

The presence of a considerable number of people from around the world, who have made it their life's mission to demonstrate that **Man is, indeed, “created in the image of God”, and has within himself the ability to eventually express all of the powers of the Cosmos**, gives physical scientists a priceless opportunity to begin learning about the Spiritual Nature of Man. **This is an absolute prerequisite toward developing a system of Holistic Education for the world's precious children.** The fact that Man is a Microcosm of our wonderful and mysterious Macrocosm is a critically important 'concept' for which the time has come for everyone to begin comprehending thoroughly!

**This awesome concept of Man as being the Supreme Microcosmic Representation of the Cosmos is contained in all of the most profound philosophical writings that have been produced throughout the history of mankind on earth.** Among all of the nations which have risen and fallen, over the last 12,000 years of the negative cycle of human evolution on earth, none have more greatly honored and respected this concept than the Spiritual Scientists of ancient Egypt. **The plans for the construction of the Temple of Luxor were based entirely upon the extensive physical and deeply esoteric spiritual knowledge that the ancient Egyptians had inherited, and discovered, concerning their view of the human body as a Microcosm.** Indeed, the entire temple can be considered as a book which explains the secret functions of the organs and nerve centers of the human body and their relationships to the starry heavens.

All of this would be quite unknown to our present civilization were it not for the monumental lifetime of work done by the great self-made archaeologist R. A. Schwaller de Lubicz and his highly motivated, and deeply spiritual, wife Isha(2). **The knowledge, wisdom, and understanding of the true nature of Man, that can be obtained from their decoding of the Temple of Luxor, has made a tremendous contribution to the development of our personal cosmology and the Holistic System of Education that is a result of this.**

The very highest wisdom that has come down to us from history is embodied in the statement: **“Know Thyself!”** Indeed, if we could only come to really 'know ourselves', we would also discover that we know all things! But, what is more: since the Cosmos is holographic, everything that is a part of Its Infinite Self, from the smallest atomic particle, to the largest super-galactic cluster, contains the

genetic essence of an entire universe within its being. Therefore, to know The Essence of Consciousness, and our awesome Cosmos who represents It, we must strive to expand our consciousness to enfold all things.

**Thus, it follows that ‘The Love of Pure Holistic Learning’ lies at the very foundation of physical, mental, and spiritual development of mankind, the release of their divine potentials, and the expansion of their awareness into the bliss of Oneness with the all-prevailing Cosmic Energy. If mankind desires to accomplish this, and have the time to do so, then they must immediately begin to create a highly evolved system of Holistic Education for their children.** This is a great challenge because it can only be met by constructing a feminine Spiritual Science that is a worthy mate for Masculine Physical Science, that has reached a critical stage of development on earth, and unifying them under the guidance of the four great cosmic laws:

## **THE FOUR GREAT COSMIC LAWS**

As we have thoroughly discussed in our book, **Soulmate Cosmological Action**, and in several articles on our website ([www.soulmatecosmology.com](http://www.soulmatecosmology.com)), **that our awesome infinitely boundless, and Eternally Living Cosmos, is the very quintessence of Oneness!** This is embodied in the first of the three great Cosmic Laws which define, control, and activate the creation of all infinitely entangled living entities and all of the evolutionary action processes that eternally unfold, evolve, and expand the Consciousness of the Cosmos forever. For this, there was no beginning and there shall never be an end; indeed, Divine Cosmic Reality is Timeless! All that is consciously perceivable lies only in the Eternal Now (Please read our article: **Heaven in the Eternal Now** on our website). We now state The Three Great Cosmic Laws:

### **I) THE ABSOLUTE LAW OF ONENESS**

*All things which are bounded and perceivable, and all things which are unbounded and unperceivable, are timelessly and characteristically united as One; and the Absolute One is systematically and Eternally manifesting Itself as Infinitely Expanding Cosmic Light (Energy).*

**Corollary (A) - Energy cannot be destroyed.**

**Corollary (B) - Energy is eternally EXPANDING QUALITATIVELY.**

This is the most obvious, and easily comprehensible of the four great cosmic laws! Even from the point of view of the dullest possible human mind, which is sleeping behind the dullest senses imaginable, the Absolute Law of Oneness is obvious; therefore, it absolutely needs no proof!

*"All mankind is of one author, and is one volume; when one man dies, one chapter is not torn out of the book, but translated into a better language; and every chapter must be so translated...As therefore the bell that rings to a sermon, calls not upon the preacher only, but upon the congregation to come: so this bell calls us all: but how much more me, who am brought so near the door by this sickness....No man is an island, entire of itself...any man's death diminishes me, because I am involved in mankind; and therefore never send to know for whom the bell tolls; it tolls for thee."(3)*

It is this quotation which inspired Joan Baez to write the lyrics for her song “**No Man is an Island**”:

*No man is an Island; No man stands alone; Each man's joy is joy to me; Each man's grief is my own; We need one another, so I will define each man as my brother, each man as a friend.*

**The Masculine Consciousness of Energy(MCE) and the Feminine Ethereal Matrix of Mass Energy(FMM)**, which are thoroughly defined by our Personal Cosmology, are eternally expanding forever! This is why cosmologists see our universe as being in a state of continuous expansion; however, energy is being added, not dissipated, because when the Cosmos as a whole is considered as being centered from within, with respect to each Microcosm, and Macro-cosmically bounded from without at infinity, with respect to Itself, by **THE AWARENESS OF THE BOUNDLESS COSMIC ESSENCE(BCE)** it always has been, is, and will forever be in a state of continuous qualitative growth!

## **II) THE DUAL ACTION LAW OF THOUGHT**

*Thought calls forth duality; duality re-formulates thought; and the action of this vicious circle gives rise to the consciousness of all Microcosms and their Eternal Cosmic Evolutionary Action!*

**Corollary (A) - The Expansion of Consciousness through the Love of Pure Learning.**

## **Corollary (B) - The Contraction of Consciousness through Apathetic Ignorance.**

This awesome law is as prevalent, and all encompassing, as the Absolute Law of Oneness; indeed, they are a Cosmic Soulmate Pair with **the Absolute Law of Oneness being the feminine aspect** and **The Dual Action Law of Thought being the masculine aspect**. It is; however, very far from being obvious to the extremely limited spiritual awareness of earth bound mankind who have been evolving through the negative phase of their spiritual cycle of evolution on earth for the past 12,000 years.

It is this fantastic, and unbelievable law which grants to every human microcosm the power to make all of their dreams come true! Indeed, whatever 'thing', 'concept', or 'process' you desire and think about with intellectual precision, intuitively love emotionally, and finally 'act-upon' with all of your abilities, will, most definitely, become a reality either in this life or in those which are to come!

Indeed, it is this great law which converts neutral undivided energy, that 'periodically' abides in thoughtless awareness, into 'divided' gender conditioned energy, which periodically creates ALL of the evolutionary cosmological action, that expands the **AWARENESS OF THE NAMELESS COSMIC ESSENCE** into Infinity, and beyond Infinity! **This is the ultimate expression of the Eternal Duality of Thought: The Periodic Creation (The state of being awake) and Illusionary Annihilation of the entire Cosmos (The state of being asleep) forever, and forever!**

The duality of thought is more prevalent than the air we breath, more common than the light of the Sun which creates and empowers the entire biosphere of our beautiful earth. **Since Consciousness and Energy are One, it logically follows that our glorious Sun, who contains the greatest quantity of high quality energy in our Universe, is also endowed with the highest level of creative consciousness!** All of the atoms which the bodies of every living thing are constructed, are created in the cores of the stars; the stars then create the planets with their biospheres which support and evolve this life; therefore, if you desire to have a symbol which represents the Creator of All Life, there are none which are more appropriate than the Sun. Therefore, it is obvious that Solar Divinities, and Sun Worship are found all throughout recorded history!

Great Empires of the Sun have come and gone, and, no doubt will come and go again! In his authoritative book: *The Origin of all Religious Worship*, published in 1798, Charles Francois Dupuis of France traced the origins of all religions back to the ancient worshipers of the Sun! One thing is for certain, it can never be disputed that without our glorious Sun, there would, most certainly, not be any life here, and there would be no solar system either! The Sun is the most splendid representative of Cosmic Life Energy which is immediately accessible to us, and it is only through praising the wonder, glory, and sublime mystery of our awesomely beautiful Cosmos, who is the ultimately expression of energy, that we can, by abstraction, worship that which is beyond all thought and perception!

Every thought that a person thinks, instantly proves duality! This was recognized long ago by the ancient Taoist:

*Since the world points up beauty as such, there is ugliness too.  
When goodness is taken as goodness, wickedness enters as well.  
For is and is-not come together.  
Hard and soft are complimentary.  
Before and after, are a sequence. (4)*

Now, do a few quick experiments: Try to think of the concept of ‘Love’ without simultaneously (consciously or subconsciously) referring to its dual-opposite concept of ‘Hate’; try to think of a book being suspended ‘up’ in your room, without also thinking of the ‘floor’ which is ‘down’ in your room; finally, try to think of ‘day’ without referring to ‘night’, or comprehend ‘light’ without reference to ‘darkness’! You see? It is absolutely impossible to conceive of any concept whatsoever without referring to its dual-opposite. So why do people think of one aspect of a concept as being ‘good’ and the dual aspect of the same concept as being ‘evil’?

**Since the Absolute Law of Oneness can never be broken, no two things, or concepts, can be opposite in the sense that they are also ‘separate’ from the whole!** Therefore, the one and only way in which two concepts can be dual to each other and not opposite and separate, is that they be gender-conditioned with respect to each other. Consequently, **in our cosmology, gender conditioning is a projection of The Consciousness of Energy which is the Source of All Life!** **Since this concept has been greatly suppressed by physical scientists and mathematicians, in their enormous efforts to develop a viable Theory of**

**Everything, Consciousness, and therefore Life, is effectively absent in their formulations.** This is why Steven Hawking and his co-author Leonard Mlodinow, in their recent book, *The Grand Design*, have come to the following conclusion:

*Spontaneous creation is the reason there is something rather than nothing, why the universe exists, why we exist. It is not necessary to invoke God to light the blue touch paper and set the universe going. (5)*

As **BCE** awakens from His timeless sleep, and prepares to give birth to a new Cosmos, which is based upon the extent to which Its Consciousness has been expanded during the previous Cosmos, His first thought is “**I am that I am**”; this means that He is instantly aware of His existence. Then, immediately follows the question: “**Who am I?**”; to this, It can only answer: “**I, THE BOUNDLESS COSMIC ESSENCE, am ONE!**” But, the concept of ‘**ONE**’ can only be perceived with respect to the concept of ‘**MANY**’; therefore, His **AWARENESS** immediately divides Its energy embodiment into an infinitely countable number of microcosmic parts, each of which is centered from within, and bounded from without, by His **AWARENESS**. **Thus, the first thought-duality is THE ONE VERSES THE MANY!** Each morning, as you awaken from a deep sleep, and prepare for the activities of the coming new day, your dual-thought processes are analogous to those of BCE as He awakens and prepares to create a new Cosmos! This analogy is perfect because Man is a Microcosm! *Thought duality reigns eternally!*

There can be no ‘good’ without ‘evil’; there can be no ‘saints’ without ‘sinners’; There can be no ‘winners’ without ‘losers’; there can be no ‘peace’ without ‘war’. There can be no ‘rich’ without ‘poor’, and there can be no ‘life’ without ‘death’! Everything which mankind has devised, as various means of entertaining themselves, has always been based upon activities which have some degree of violent interaction between things labeled as ‘good’(positive gender) on one side, and things labeled as ‘evil’(negative gender) on the other. Indeed, and especially with respect to the movie industry, often the greater the violence, the greater the entertainment value! In other words, **without duality, there can be no Consciousness to project Life, no Cosmos to serve as a stage upon which life can evolve, and no means to expand the AWARENESS of BCE through the experiences generated by life’s adversities and devotion to the Love of Pure Learning about our awesomely mysterious and wonderful Cosmos!**

### III) THE LAW OF GENDER-CONDITIONED INTERACTION (THE LAW OF VIBRATION (MUSIC))

*The fundamental creative principle, which brought the Cosmos into being, is the Principle of the Harmonically Balanced, and Octave Structured, interchange of Love-Energy between Dual-sexed pairs, through giving and re-giving, that is perfectly modeled by pendulum oscillation and the wave-motion of light.*

**Corollary (A) - The Law of Vibration (LIFE)**

**Corollary (B) - The Law of LOVE.**

**Corollary (C) - The Creative Cosmic Octave of Music**

During the development of our cosmology, we have come to the remarkable conclusion that it is the harmonically balanced interchange of the energy of love between soulmate pairs that is the cause of all vibration! For example, consider the ethereal vibrations which create visible light: The electric aspect of light is masculine while its feminine aspect is magnetic. When the energy of the light is stored in its magnetic aspect, it then strongly desires to transfer this energy, by feminine action, to its soulmate, the masculine electrical aspect, and does so. After this energy has been received by the electrical aspect, it strongly desires to return it to its feminine aspect, by masculine action, and does so. It is in this very same manner that all of the frequencies of the light spectrum are created. Since energy is directly proportional to frequency, Light and Energy are identical. However, the consciousnesses, which are associated with the vibrations of the light spectrum, are in potential and have no active control over the manner in which the energy of love is autonomically exchanged between their masculine electrical and feminine magnetic aspects.

In the case of the cyclic interchange of love energy between the male and female aspects of the human microcosm, the role of consciousness is extremely active and profound! While evolving at very low levels of spiritual awareness, **the greatly unbalanced vibratory exchange of love and/or hate energies between the human dual-sexed pair results in the creation of an environment in which learning can only take place by violating the laws of nature and suffering the awful consequences.** However, it is only by experiencing the agony of evolving in such an environment, that the human Spirit is able to establish a reference point for realizing Its ‘consciousness of self’, and then experience the great desire to lift Itself out of this chaos by expanding its consciousness upwards into the glorious

light of Cosmic Spiritual Awareness!

**The Law of Love, is consciously enacted through the process of ‘giving and re-giving’.** For example, whenever love is given to you (in whatever manner this may occur) from the consciousness of energy in general, or from another beautiful human being in particular, it deeply motivates you (if you are sufficiently evolved spiritually) to give back something to the Consciousness of Energy that is equal to, or greater in value, than that which you received. It is in this manner, and this manner only, that perfect harmony and balance is established among divine human beings who have expanded their consciousness beyond the entrapments of materialism.

#### **IV) THE LAW OF GEOMETRICAL ACTION FORMATION**

*The Dark Creation and Annihilation Force (DCA), which is projected by the ‘WILL’ of BCE, spirally compresses the FEMININE ETHEREAL MATRIX OF MASS ENERGY (FMM) into nine levels of increasing mass- energy density and decreasing levels of awareness (evolution). Then, at the physical level (which is the level of highest density) it forms the Matrix of Mass Energy into the geometrically constructed living embodiments for Its Spirit (embodied in GOD THE COSMOS, Its Physical Representative), Man in particular, and all other supporting living things in general, that have been idealized by BCE’s creative mind. These then serve as the vehicles with which BCE EXPANDS HIS CONSCIOUSNESS (involution) by learning from Man’s experiences of Life and their relentless devotion to THE LOVE OF PURE LEARNING.*

**Corollary (A) - Masculine Universal Geometrical Mathematics is the Language of Consciousness.**

**Corollary (B) - All Cosmic Structure is based upon the Feminine Creative Cosmic Octave of Music which is projected by Universal Geometrical Mathematics.**

These four very profound and beautiful Cosmic Laws serve as the premises for **our personal soulmate cosmology** and the foundation upon which our **System of Holistic Education** is based. They have been proven to the great satisfaction of our hearts, minds, and spirits and are a continuing source of enormous joy, happiness, and fulfillment. **As we consciously and joyfully apply them every hour of the day, while we are awake, and subconsciously apply them every hour of the night, while we are asleep, our consciousness is expanding**

**exponentially into increasingly higher levels of awareness. Indeed, we are experiencing the indescribable bliss of being at One with the awesome Love and Light of THE BOUNDLESS COSMIC ESSENCE, who is the source of all Consciousness.**

The fact that we have been able to achieve this level of spiritual development on earth by utilizing all of the knowledge, wisdom, and understanding that has been earned by the greatest philosophers, mathematicians, and scientists who have dedicated their lives, during the last 12,000 years, toward expanding the consciousness of earth-based mankind, means that if our system of holistic education is properly applied to all of the world's children, it might make it possible for each of them to expand their plane of consciousness, with which they are born, to the level of awareness that they are now being required to reach by **BCE**.

## **THE PURPOSE OF HOLISTIC EDUCATION**

According to our Personal Cosmology, we recommend that The Holistic System of Education, which we are proposing should, without exception, be based upon these four great laws because only in this way can it perfectly conform to the true nature of the physical and spiritual Cosmos and, consequently, to the true nature of Man. Since **BCE** is eternally unknowable, and forever beyond all thought, He had no alternative but to create **GOD-THE-COSMOS(GOD)** as a dual perceivable representation of Himself (Hermes referred to **Her** as the Second God).

(In our Cosmology, **BCE** is assumed to be masculine with respect to His representative **GOD** who must then be feminine; **“Eternity is in LOVE with the productions of Time.”** (William Blake))

Then He created gender conditioned living entities as embodiments of the infinite aspects of His Divine Consciousness, to perceive, thoroughly comprehend, and intuitively understand His awesome Cosmos from an infinite number of points of view! *Therefore, each and every incarnation of the human spirit, presently evolving on earth, should fulfill their divine purpose of developing their personal cosmology, from their unique points of view, in order to be able to make their contributions toward EXPANDING THE CONSCIOUSNESS OF*

***THE COSMOS as a whole by praising, honoring, and glorifying BCE, who is the Unknowable Essence of their Consciousness, through experiencing the awesome wonders of His creation; indeed, this is the real definition of true worship!***

It is only by consolidating the maximized diversity of the evolutionary cosmologies contributed by Its infinity of incarnated souls, who are living and learning at all levels of experience throughout Its boundless Cosmos, that the unknowable **BCE**, can continuously expand His Consciousness forever and forever through the awesome Cosmic Evolutionary Action of its macroscopic physical representative **GOD-THE-COSMOS**, and its infinity of microscopic inter-dimensional representatives, **MANKIND!** Eternally, it is whispering to us through our Spirits which center and enfold each and every one of us: **“Behold, I can only be through you!”**

***Diversity is a principle foundation stone of nature because only through diversity can experience be maximized and consciousness reach its pinnacle through the Expansion of Cosmic Awareness.***

**Thus, the purpose of Man can only be fulfilled through ‘The Love of Pure Holistic Learning’ and by never forgetting that the gender conditioned human pair was created to serve the Cosmos and not to be pandered by It!** After all **BCE**, who is the Eternal Spirit of Consciousness, the quintessence of all action-energy evolutionary processes, centers every person from within, and enfolds them from without; consequently, the human expression, male and female, is an incarnation of that Awesome Spirit. Being eternal, and immortal, they are the glorious capstone of the pyramidal structure of nature.

Since the human Spirit is One with all that is and ever shall be, the so-called ‘death’ which is experienced, while evolving at a low levels of consciousness and spiritual awareness, under the illusions of life in the physical world, serves only as a reference point in the darkness of ignorance, with respect to which, the Human Spirit can eventually fully comprehend, and thoroughly appreciate, the glorious light of Eternal Life in higher dimensional worlds. **After more than seventy years of relentlessly struggling to develop our ability to comprehend and describe these worlds of higher light-density geometrically and musically, we have been convinced, by GOD-THE-COSMOS Herself, that She is not only**

**astonishingly alive, She is also profoundly Conscious!**

The greatest reward which comes to each and every person who succeeds in raising their plane of Spiritual consciousness above ignorance and materialism, will be the 'shocking' realization that they have always been communicating with **BCE** through **God** unconsciously and that now, suddenly, they are consciously communicating with God at very highest levels of Cosmic Awareness using **The Language of Light which we are creating with the help of all of Mankind's accumulated knowledge, wisdom, and understanding, by unifying and marrying the wonderful gender conditioned pair who are known as THE FEMININE CREATIVE OCTAVE OF COSMIC MUSIC AND MASCULINE UNIVERSAL GEOMETRICAL MATHEMATICS!**

### **ON THE NATURE OF HOLISTIC TEACHING**

**Throughout human history, great teachers have always been revered!** Why is this so? Because everyone who devotes himself to the Love of Pure Learning, is so delighted and enthralled by the joyful expansion of their consciousness, which results from it, that their thirst for more knowledge, wisdom, and understanding increases exponentially! The most profound definition of what characterizes a True, Holistic and Loving Teacher, was expressed by Kahlil Gibran in his wonderful poem, *On Teaching*, which was given to humanity through his book: *The Prophet*:

*Then said a teacher, Speak to us of Teaching. And he said:*

*No man can reveal to you aught but that which already lies half asleep in the dawning of your knowledge.*

*The teacher who walks in the shadow of the temple, among his followers, gives not of his wisdom but rather of his faith and his lovingness.*

*If he is indeed wise he does not bid you enter the house of his wisdom, but rather leads you to the threshold of your own mind.*

*The astronomer may speak to you of his understanding of space, but he cannot give you his understanding.*

*The musician may sing to you of the rhythm which is in all space, but he cannot give you the ear which arrests the rhythm nor the voice that echoes it.*

*And he who is versed in the science of numbers can tell of the regions of weight and measure, but he cannot conduct you thither.*

*For the vision of one man lends not its wings to another man.*

*And even as each one of you stands along in God's knowledge, so must each one of you be alone in his knowledge of God and in his understanding of the earth.*

This wonderful poem contains within itself the essence of everything which is required to construct the most profound Holistic System of Education that can ever be imagined! To fully understand the purpose of Holistic Education, and the requirement of having Great Holistic Teachers to carry it out, let us attempt to more deeply comprehend what is being suggested by Genesis 1:27:

*So God created Man in his own image, in the image of God created he him; male and female created he them.*

Now since it is impossible for us to transfer our understanding of this statement to anybody else, we can only lead you to 'the threshold of your own mind' with which you must relentlessly learn, study, and meditate upon this statement in order to obtain your unique and personal understanding! You will know when you succeed because a wonderful feeling, which comes deep from within your soul, will enfold you and you cannot help but cry out: **"EUREKA"**! **Therefore, to help you obtain your personal understanding of Genesis 1:27, we will do for you the only thing that is possible for any teacher to do, and this is to make our most earnest attempt to lead you to the threshold of your mind, by describing how we derived at our understanding of this statement while developing our Personal Cosmology:**

Most people, when they read this statement, pass over the word 'image' without giving it serious thought. Now, from our point of view, the highest and most sophisticated concept of the Nature of God which was passed down to us through the Hebrews, is the idea that the Real God is boundless and; therefore, can never be consciously perceived! This is why they referred to Him as **THE NAMELESS**

**ONE.** From deep within our personal consciousness, and with profound emotions, we think of It as the Essence of Consciousness, **THE BOUNDLESS AWARENESS**, who is within all perceivable things centering them and around all perceivable things enfolding them. Throughout our writings, we have been referring to Him as: **THE BOUNDLESS COSMIC ESSENCE**; henceforth, we will sometimes denote Him by the abbreviation (**BCE**).

Now we are bounded, centered, and perceivable human beings, and when we stand before a mirror, we see our ‘image’ reflected within it. But, **BCE** can never be perceived by human consciousness; therefore, He can, most certainly, never be ‘seen’; let alone cast an ‘image’ into a mirror! Consequently, the expression ‘image of God’ cannot, in anyway, be referring directly to **BCE**!

After deeply meditating upon Genesis 1:27, for many years, while we were in the process of developing our Personal and Unique Cosmology, we gradually came to what we now believe is the only obvious conclusion, which is that the name, **GOD**, can only be referring to that which is The Representative of **BCE**! It was an enormous ‘**EUREKA**’ moment for us when we realized that our Awesomely Wonderful, and Profoundly Mysterious Cosmos, which eternally stands before us, and eternally abides within us, is the Representative of **BCE** who is forever beyond all perception and; consequently beyond all knowing! Since He has always had, and always will have, the Eternal Desire to be Known, there was no alternative but to create **GOD-THE-COSMOS(GOD)** to represent Him; and, in parallel, create Man the Microcosm, a miniature replica of **GOD**, to eventually come to know Him in the process of learning all about His Representative, **GOD**.

Now what is the mirror into which the ‘Image’ of **BCE** is reflected? In our Personal Cosmology, the ‘mirror’ is referred to as: **THE FEMININE ETHEREAL MATRIX OF MASS ENERGY(FMM)**! It is an Indescribable, Fearfully Awesome, and Eternal Ethereal Sea of Mass- Energy, which is referred as **THE WATERS** in Genesis 1:2:

*And the earth was without form, and void; and the darkness was upon the Face of the Deep. And the Spirit of God moved upon the face of the waters.*

Notice the statement: “**Spirit** of God moved upon the **face** of the waters.” But in our Cosmology, the **Spirit** of God is none other than **THE ETERNAL**

**AWARENESS OF BCE!** Now, it is well known that the surface of the ocean can act like a mirror; and a synonym for ‘**surface**’ is ‘**face**’! Also, when you are seeing someone’s face, you are also in their ‘**presence**’ which is the deeper meaning of the Hebrew word that was translated ‘face’.

Now the Hebrew word which was translated ‘**moved**’, is **RACHAPH**; however, it really means **LOVE, in the sense of a Man loving a Woman!** This is why one of the early translators of the Torah wrote the following words for the second sentence in Genesis 1:2:

***And the Spirit of God pregnantly Loved the Face of the Waters.***

A beautiful analogy now comes to mind: The oceans of the earth are feminine in nature and constitutes the ‘womb’ which gave birth to all life on earth, after she had been impregnated by the Masculine Light of the Sun projecting Himself upon her Face! The oceans, which are the Womb of the earth, correspond precisely to our **FMM** which enfolds an Infinite, all encompassing sea of eternal ethereal Mass Energy that constitutes **the Womb which gave birth to THE COSMOS ITSELF**, after being impregnated by the Masculine Spiritual Light of **BCE** projecting himself upon her Face!

Like all things, **FMM** is dual having a masculine aspect and a feminine aspect. The masculine aspect of **FMM** is the infinite **MASCULINE SEA OF ZERO-POINT MASS ENERGY (MME)**, and the feminine aspect of **FMM** is infinite **FEMININE ETHEREAL MATRIX ENERGY (FME)**; it has recently been discovered and is presently referred to as **DARK MATTER!** **FMM = FME + MME.**

The Masculine Light of our adorable Sun corresponds to **BCE** who is the **Spirit** of God referred to in Genesis. But in our Cosmology, **BCE is the Spirit of GOD-THE-COSMOS!** Therefore, this analogy forces us to conclude that the **God**, who is written about in all of the scriptures, and to which all believers pray, is, in reality, **THE COSMOS ITSELF!** Thus **BCE**, who is beyond all thought and conscious perception, lovingly impregnated **FMM**, so that **SHE, the Awesomely Beautiful and profoundly mysterious MOTHER GODDESS OF ALL CREATION**, could give birth to a physical and knowable representative of Himself, whom we refer to in our Cosmology as **GOD-THE-COSMOS**, or

simply **GOD!**

**BCE** impregnates **FMM** by projecting His **AWARENESS** into the Matrix of Her Mass Energy, this gives birth to the ‘active’ **Masculine Intellectual Consciousness of Her Mass Energy(MCE)** and the ‘passive’ **Feminine Intuitive Consciousness of the Matrix of Her Mass Energy(FIM)**. These two gender conditioned aspects of the Cosmic Energy, with which the Body of **GOD THE COSMOS** is made, mate to create His **MIND!**

Now since Man, the Microcosm, was created in parallel with **GOD THE COSMOS**, they must correspond one-to-one:

The right side of Man’s brain corresponds to **FIM**..

The left side of Man’s brain corresponds to **MCE**.

The physical body of Man corresponds to **FMM**.

The Female Aspect of Man is characterized by the dominance of **FME**.

The Male Aspect of Man is characterized by the dominance of **MME**.

**The SPIRIT of GOD THE COSMOS**, is that aspect of the **AWARENESS of the NAMELESS COSMIC ESSENCE**, who bounds and enfolds Her from without, and Centers and Inspires Her from within.

**The SPIRIT of a unique MICROCOSM (Person)** is that aspect of the **AWARENESS of the NAMELESS COSMIC ESSENCE**, which bounds and enfolds them from without and centers and inspires them from within.

The degree to which you can comprehend, what we have just written, depends upon the Level of Awareness to which you have already expanded your consciousness. In other words, to what extent have we awakened the knowledge, which already lies half asleep within you, that pertains to your ability to comprehend and understand Genesis 1:2?

## **OUR WONDERFUL HOLISTIC SPIRITUAL TEACHERS**

Only the exoteric documents, pertaining to a few of the wonderful spiritual teachers of mankind on earth, such as the Prophets of the Old Testament, great spiritual revelators like Yeshua (Christ), Buddha, Krishna, and Mohammed, are

well known to everyone. They came to earth at times when the spiritual awareness of the people was very primitive. Consequently, they taught only basic concepts to the general public concerning how to live a life with love and concern for their neighbors. Therefore, they are largely responsible for inspiring their disciples to write the vast majority of the Bibles, and other religious manuscripts, that are commonly used to give a sense of spiritual fulfillment to the masses who are still evolving at a low level of spiritual awareness under the yoke of ignorance and materialism.

Since the Levels of Spiritual Consciousness of the disciples were very much lower than those of their teachers, and not very much higher than those of the average person, they could only write about the spiritual concepts which were self-evident from the point of view of their mythology(awareness) and attempt to correct their distorted views of higher cosmological concepts that were far beyond their understanding. So that when these spiritual writings are being read and studied by those who worship the Spiritual Revelator who inspired them, they are unable to extract much meaning from them because they can only relate to that which directly concerns their survival and their response to the agony and ecstasy of their life's experiences. Also, being extroverted and not introverted, they are unable to meditate deeply upon their perceived meanings of the words under the guidance and inspiration of their Spirits who center and enfold them.

Our beloved teacher, who was also a historian, and neurologist, Dr. Brown Landone, attempted to re-interpret significant portions, of the Jewish-Christian Bible, from the perspective of his highly evolved spiritual point of view and advanced consciousness and awareness. He discovered that the process of translating spiritual literature between languages often resulted in twisting the meanings of words, and malicious editing, in order to make the words say what the biased scribe, or supervising priest, desired them to say. By going back to the original Hebrew and Greek he was able to construct exact translations and extract original meaning. Then with his advanced state of knowledge and awareness of the physical and spiritual Cosmos, he was able to understand the meaning of the spiritual writings. **He believed that if this was done for the entire Jewish-Christian Bible, the discovery would be made that it is thoroughly compatible with modern science, in harmony with the four great Cosmic Laws, and still capable of contributing much to the evolution of the human mind and spirit.**

Even though he was not able to complete his re-interpretation of the Bible, he did enough to make it possible for the evolved scientific and spiritual philosophers of today to easily finish the job after taking into account the distortions that were placed in it while it was being translated and canonized as the following quote indicates:

*To realize the true concept of Oneness and Ever Present Unity of All in God leads you to know that God is Ever-Evolving-in manifestation and that man-is-forever-unfolding—and that all things and conditions are good and beneficent on the eternal path of realization, from infinity to infinity!*

*To realize that man never “fell” into evil or even supposed claims of evil, one must KNOW that so-called evil is not an OPPOSITE of good but the COMPLEMENT of good.*

*All modern mistaken concepts in our western religious and spiritual thought are based, directly or indirectly, upon the mistranslation of the TREE (growth) of good and evil in the Garden of Eden, of man’s eating of its fruit, and his supposed fall because of doing so. What is the truth of this? God himself is the only ALL-Knowing authority, able to tell us the RESULT of man’s experience in the Garden of Eden. When all was there finished, God pronounced the result thus: “Behold, the man HAS BECOME as ONE of US,”—Genesis 3:22. That was not a “fall”; it was a RISE TO GODHOOD! (6)*

The Cosmic Essence has ordained that throughout both phases of the cycle of spiritual evolution on earth, the light of knowledge, love, truth, and Oneness shall, unconsciously center the darkness during the negative phase, and the darkness of ignorance, fear, and the illusion of separateness, will unconsciously center the light during the positive phase. This is the real meaning of the Chinese Yin-Yang symbol and the reason for the way we constructed the cycle of human spiritual evolution in our article, **Mankind’s Cycle of Spiritual Evolution on Earth**, which appears on our website. Thus, during the positive phase, while spiritual light is dominant, it is centered by a point of materialistic darkness, and during the negative phase, while materialistic darkness is dominant, it is centered by a point of spiritual light. In this manner, The Law of Duality, which is the cause of all Cosmic Evolutionary Action, is able to always fulfill its role of striving to bring about balance between the Light of Life and Love (**The Love of Pure Learning**) and the Darkness of Death and Hate (**Willful and Sustained Ignorance**).

From the point of view of western civilization, it appears that Spiritual Science has made little or no progress over the past 2000 years; however, this is most certainly not the case! The reason for this is that Spiritual Science has always been evolving at levels of consciousness that are higher than the plane of animal consciousness in which the vast majority of incarnated human spirits on planet earth are slowly learning through the agony and ecstasy of life's experiences. Indeed, throughout the past 12,000 years of the cycle of human spiritual evolution on earth, several great teachers of Unified Physical and Spiritual Science have taught, inspired, and guided that very small percentage of humanity, who have reached the next higher level of consciousness above the animal plane, to accelerate the expansion of their consciousness through the love of pure holistic learning!

In recent times, the students of the esoteric aspects of all of mankind's present religions, plus the Ancient Mystery School of Light, which has always existed in earth's ethereal domain, have continued the development of Spiritual Science. Consequently, several wonderful spiritual teachers such as Helena Blavatsky, Alice Bailey, Andrew Jackson Davis, Rudolf Steiner, Brown Landone, Georges Gurdjieff, Walter Russell, Omraam Mikhael Aivanhov, and a few others who have not yet revealed themselves, have made enormous contributions to the spiritual development of mankind on earth.

Their revelations, combined with the development of Geometrical Mathematics during the last 2,500 years by such celebrated mathematicians as Pythagoras, Archimedes, Euclid, Desargues, Pascal, Descartes, Steiner, Gauss, etc., and the unification of the several branches of Geometry by David Hestenes, and his colleagues, who drew upon the work of Grassmann, Clifford, Whitehead, and several others, led to the creation of Universal Geometrical Mathematics which is the masculine aspect of our Language of Light.

After extensively studying the philosophy of Gurdjieff, which is based upon the octave of music, utilizing the theory of music as it was developed by Pythagoras and amplified by the father of classical music, Bach, we were led to our most important discovery that **THE CREATIVE OCTAVE OF COSMIC MUSIC can be projected out in detail utilizing the Fundamental Law of Projective Geometry!** With this discovery, it followed immediately that this wonderful, and enchanting octave, must be the feminine aspect of the language of light we desired to create.

Therefore, by marrying **UNIVERSAL GEOMETRICAL MATHEMATICS** with **THE CREATIVE OCTAVE OF COSMIC MUSIC**, we succeeded in creating our **LANGUAGE OF LIGHT**, with which we are joyously, intimately, and with enormous happiness and fulfillment, communicating with **MCE** and **FIM**, the masculine and feminine aspects of **THE CONSCIOUSNESS OF ENERGY!**

Therefore, the development of this new language is a direct consequence of the sum total of knowledge, concerning the true nature of our awesome Cosmos, that has been generated by the people of earth over the past 12,000 years under the inspiration and guidance of incarnated teachers from higher levels of awareness. Most important of all, is their obtainment of the most priceless gift of ‘understanding’. **It is only through the acquisition of understanding that consciousness can be expanded. Since understanding cannot be transferred from one person to another, each and every individual should obtain it for themselves through devotion to the Love of Pure Holistic Learning under the inspiration and guidance of their Spirit within.**

This language is now sufficiently developed to enable us to construct a system of Holistic Education that will help our young people expand their Cosmic consciousness to the next higher level of Awareness! Now that the cycle of spiritual evolution on earth has reached the critical transition point between the ending of the negative phase of materialistic darkness, and the beginning of the positive phase of spiritual light, a quantum leap in consciousness is being demanded of mankind by **GOD THE COSMOS!**

Consequently, **mankind is now being given the choice of voluntarily bringing about this leap in consciousness, through holistically educating all of the children on earth, or by failing to do so, make it impossible for our children to qualify for help, from higher dimensions of awareness, during what will be very catastrophic changes on the earth’s surface!** The re-terra-forming processes that the earth must undergo, in order to prepare for the positive phase of the cycle of human spiritual evolution, have already begun! Make no mistake, the cycles of the earth are intimately intertwined with the cycles of the Sun and the evolutionary cycles of Man on earth! Mankind must either conform to them lovingly, voluntarily, and in the Sense of Oneness by intensely elevating the Spiritual Awareness of their children, with an advanced system of holistic

education, or be forced to do so by Nature through extremely disruptive and painful earth-terra-forming processes!

**The frightening depth of spiritual darkness that is presently being experienced by the people of earth, combined with a deeply apathetic response to the wonderful teachings of light that they have already been given, makes it unlikely that they are going to employ Holistic Education with sufficient haste, and to the degree that is required, in order to qualify, in time, for help from higher dimensions of awareness. Therefore, complete preparations for the standard catastrophic scenario of transition are fully in place and on standby!**

Nevertheless, **THE NAMELESS COSMIC ESSENCE** requires that the choice be given, to mankind on earth, by the spirits of those who have evolved to a higher level of Awareness, with the hope that humanity would pull off a ‘Cosmic Surprise’ by voluntarily expanding their consciousness into the Light of Cosmic Oneness! If this could be accomplished in time to avoid the default scenario, then the entire population of mankind on earth would be elevated into the Consciousness of the Stars during this century!

Whether you believe this or not, education is in crisis, not only in the United States, but all over the world. Therefore, we assure you that if you succeed in solving this crisis, which now blatantly confronts you, by developing an holistic system of education, you will also eventually succeed in solving nearly all of mankind’s most pressing problems and elevate their consciousness and spiritual awareness to the level that is required to bring forth a new age of Cosmic Light, Love, and Oneness.

Therefore, we have labored all of our lives to expound the principles of Holistic Scientific Education by developing our Cosmic Language of Geometry and Music and utilizing it to unify Physical and Spiritual Science with Consciousness! It is imperative that this be done because **in this awesome Cosmos, an effective Unified Field Theory, that does not include Consciousness, is eternally not viable!**

We have several colleagues whose work supports and enhances our own and who have uncovered the history of Spiritual Science for the last complete cycle of

26,000 years. It is now urgent that we be given the opportunity to present our plans to mankind for the rapid development of Holistic Education on earth so that the people evolving on earth will not be able to say that they were not warned or given the opportunity to prepare for the transformation of their consciousnesses and the re-terra-forming of the earth's surface. This process must, and will take place, in order to prepare for the commencement of the positive phase of the cycle of mankind's spiritual evolution on earth which is the dual reverse of the negative phase of spiritual darkness and materialism that is now terminating! Let us proceed to establish a foundation upon which we can construct a viable system of holistic education for our precious children.

### **MYTHOLOGY: AN EARLY FORM OF HOLISTIC EDUCATION**

After watching, with fascination, the astronauts touch down on the moon, Joseph Campbell wrote that ***“this represented a shift from the geocentric to a heliocentric world view. It seemed to have removed man from the center—and the center seemed so important. Spiritually, however, the center is where sight is. Stand on the height and view the horizon. Stand on the moon and view the whole earth rising— even, by way of television, in your parlor.”*** The result is an unprecedented expansion of horizon, one that could well serve in our age, as the ancient mythologies did in theirs, to cleanse the doors of perception ***“to the wonder, at once terrible and fascinating, of ourselves and of the universe.”***

He argued that it is not science that has diminished human beings or divorced us from divinity. On the contrary, the new discoveries of science ***“rejoin us to the ancients”*** by enabling us to recognize in this whole universe ***“a reflection magnified of our own most inward nature; so that we are indeed its ears, its eyes, its thinking, and its speech—or, in theological terms, God's ears, God's eyes, God's thinking, and God's Word.”*** He believed that at the moment when the astronauts touched down on the moon, mankind on earth participated in one of the very greatest leaps of the human spirit to a knowledge not only of outside nature but also of our own deep mystery; indeed, ***“the greatest ever!”*** (7)

The monumental work of Joseph Campbell has now made it possible for us who are experiencing the indescribable joy of expanding our consciousnesses, to develop a mythology for the future that will put humanity in tune with the Cosmos and remain in harmony with It forever! Indeed, Joseph Campbell regards this as the principle function of mythology.

Since **THE BOUNDLESS COSMIC ESSENCE (BCE)** is the source of all inspiration and initiative that drives mankind to create great civilizations, explore the universe, strive to know all things, and evolve toward the ultimate goal of Cosmic Consciousness, spiritual growth is crucial to the normal development of the brain and the release of its awesome potentials. *Therefore, the proper development of the child's mind requires the support of a Feminine Intuitive Spiritual Philosophy that is intimately compatible with the current evolutionary state of mankind's Masculine Intellectual Physical Science, to nurture it while it is maturing.* The Feminine Intuitive Spiritual Philosophy which guides the child through their physical, mental and spiritual development takes over the role of ancient mythology and performs the functions of a properly operating mythology as described by the greatest mythologist of all time, Joseph Campbell:

*The first is the mystical function----realizing what a wonder the universe is, and what a wonder you are, and experiencing awe before this mystery. Myth opens up the world to the dimension of mystery, to the realization of the mystery that underlies all forms. If you lose that, you don't have a mythology. If mystery is manifest through all things, the universe becomes, as it were, a holy picture. You are always addressing the transcendent mystery through the conditions of your actual world.*

*The second is the cosmological dimension, the dimension with which science is concerned--- showing you what the shape of the universe is, but showing it in such a way that the mystery again comes through. Today we tend to think that scientists have all the answers. But the great ones tell us, "No, we haven't got all the answers. We're telling you how it works—but what is it?" You strike a match, what's fire? You can tell me about oxidation, but that tells me nothing. In our own day of course, the world pictures of all the major religions are at least two thousand years out of date, and in that fact alone there is ground enough for a very serious break-off.*

*The third function of a living mythology is to validate, support, and imprint the norms of a given specific moral order, that, namely, of the society in which the individual is to live.*

*And the fourth is to guide him stage by stage, in health, strength, and harmony of spirit, through the whole foreseeable course of a useful life.*

The fourth function of myth can also be described as **the pedagogical function which enables each person to develop the Love of Pure Holistic Learning and teaches them how to live a fulfilled human life under any circumstances.**

Joseph Campbell taught mythology for thirty-eight years at Sarah Lawrence College. The young women who attend the college come from middle-class backgrounds in which they were raised up with orthodox religions. He was asked how did he get them interested in myths? He answered as follows:

*Young people just grab this stuff. Mythology teaches you what's behind literature and the arts, it teaches you about your own life. It's a great, exciting, life-nourishing subject. Mythology has a great deal to do with the stages of life, the initiation ceremonies as you move from childhood to adult responsibilities, from the unmarried state into the married state. All of those rituals are mythological rites. They have to do with your recognition of the new role that you're in, the process of throwing off the old one and coming out in the new, and entering into a responsible profession.*

The new mythology, which we are preceding to outline, in the form of our holistic system of education. will be fully capable of performing these three functions in a manner that is compatible with the present state of human evolution today. In addition, it is an evolving mythology that will inspire humanity to literally expand their consciousness into eternity, scientifically and spiritually. This is the mythology of our awesome gender conditioned three-fold Cosmos which is eternally expanding its Consciousness physically, mentally and spiritually through the agony and the ecstasy of the experiences of life at all levels of vibratory energy density.

In the final analysis, however, the ultimate purpose of developing a highly evolved system of holistic education is to first, and foremost, educate both parents to the highest level possible, with special emphasis being placed upon the Mothers! Second, to thoroughly educate everyone who is going to be the teachers of our children in order to enable them to give our children the tools that they require to release all of their divine powers and ultimately fulfill their destiny of becoming co-creators with **GOD THE COSMOS** while being blissfully enfolded in the awesome Light and Love of **THE NAMELESS COSMIC ESSENCE!** Once the mothers of the world have been highly educated holistically, **their communication with the Consciousness of Energy will make them intimately**

**aware of the wonderful fact that the education of their children must begin before birth!**

## **THE DIVINITY OF THE CHILD**

*A child is the repository of infinite possibilities.*

*Enfolded in the human infant is the beautiful “image” of an imperishable and perfect being.*

*In the baby constitution we recognize the holy plans of divine goodness—the immortal impartations of Divine Wisdom—the image and likeness of the Supreme Spirit—the possibilities of the greatest manhood, womanhood, or angelhood. The human mind is the most richly endowed. Its sphere in influence and action is the broadest. It is empowered to hold dominion over time, events, things, and circumstances. It draws its life unceasingly from the divine life of nature. It feeds on the phenomena of truth. It rises to the sphere of individuality and freedom. And it includes all the laws and conditions of growth, variety, genius, renewal, progress, and completeness.*

*“Man is the measure of all things,” said Protagoras, one of the Greek sophists; “and as men differ, there can no absolute truth.” “Man is the measure of all things,” replied Socrates, the true philosopher; “but descent deeper into his personality, and you will find that underneath all varieties there is a ground of steady truth. Men differ, but men also agree: they differ as to what is fleeting; they agree as to what is eternal. Difference is the region of opinion; Agreement is the region of Truth: let us endeavor to penetrate that region.”*

Andrew Jackson Davis(8)
